MONDAY, MARCH 19. 1739.

No. 1165.

Last Saturday arriv'd a Mail from Holland.

Venice, March 7. N. S.

drove away the Guards of Health, set fire to the Barracks at Corniolo, Perpetto and Castello, went down the River Lanfa to the very Mouth of it, where we had a Galley mann'd, and turn'd out the Crew, seiz'd the Guns, and then burnt the Vessel. The Senate has dispatch'd an Express to our Ambassador at the Imperial Court to complain to the Emperor of this Insult.

Vienna, Feb. 28. O. S. Tho' the Porte makes great Preparations for the next Campaign, yet we are assur'd 'tis desirous of a Peace; and that for this End it has lately made some Proposals, which would be relish'd, were it not for the old Restraint with which they are clogg'd, viz. the Exclusion of Russia from the Treaty. The Emperor's fix'd Resolution never to accept of such a Condition has given Occasion to new Conferences between the Emperor's Ministers and the Russian Minister the Baron de Brackel.

The Venetian Ambassador has complain'd in the Name of the Senate, and demanded Satisfaction for the Violence committed on their Frontier by 400 German Soldiers upon the Guards posted for the due Performance of the Quarantine.

The Earl of Crawford, one of the 16 Peers of Scotland, who made the last Campaign in quality of Volunter in the Russian Army near the Neister, and who afterwards went to Belgrade, is arriv'd here, after having perform'd his Quarantine at Camazon in the Island of Schur, situate between Buda and Vienna. There it was that, on the 16th of January, O. S. he receiv'd a Letter written by Order of her Czarian Majesty, inviting him to enter into the Service of that Princess, with an Offer that, if he accepted of the Proposal, he should have the Command of a Regiment, and the Post of Lieutenant General, and that the necessary Remittances should be made to him to put him into an Equipage answerable to his Birth and Quality. The Answer which the Earl return'd to this Letter was, 'That he had the greatest Obligations to her Czarian Majesty for the gracious and advantageous Offers she was pleas'd to make to him, but that it was not in his Power to lay hold of them, from the Resolution which he had taken to attach himself to the Service of no other Sovereign but the King of Great Britain; that having nevertheless reserv'd it to himself to take the Quality of Volunter in Foreign Service, and being extremely affected with the Goodness of so great a Princess, he propos'd to make another Campaign in her Armies against the Infidels.' The Earl adds other Expressions of Gratitude for the Tokens which her Czarian Majesty is pleas'd to give him of her Generosity; and declares that he is so far from a Desire to put her to any Charge, that he will make the Campaign at his own Expence. His Lordship proposes to return very soon to Petersburg.

Leipsick, March 7. O. S. According to Letters from Dresden, a Fire broke out the 26th ult. with very great Violence at Bischoffwerda, by which 50 Houses were reduc'd to Ashes, but thro' Providence none of the Inhabitants perish'd in the Flames. The Fire which has consum'd the greatest Part of the Town of Heiligenstadt, has reduc'd a great Number of People there to extreme Poverty. Besides the publick Structures, the Number of private Houses that was burnt down there amounts to 440, and there is but 100 left standing. A great many Families, reduc'd by this Disaster, have retir'd to Duderstadt and several Places in the Neighbourhood.

Paris, March 16. N. S. A Philosophical Amusement on the Language of Beasts is the Title of a Book publish'd here, which makes a great Noise. The Author of it builds upon a very odd Hypotheses, for

he pretends, 'That the fallen Angels were forc'd by the Divine Indignation to enter for their Punishment into the Bodies of Animals; that they are still there waiting for their Punishment in Hell after the last Day of Judgment.' The Author foreseeing that so uncommon an Opinion would be shocking, and that if the World thought him in earnest, his Work might fare the worse for it, has thought fit to advertise his Readers, that he only wrote for their Amusement: But notwithstanding the Care he has taken to prepossess the Publick, 'tis look'd upon as a Book pernicious to Religion. As to the Author, 'tis said he belongs to a celebrated Society, which, however, far from justifying him, have disapprov'd of his Work, and banish'd its Author to the Convent of la Flocke. Two Days ago the Chancellor caus'd the whole Impression to be seiz'd at the Bookseller's by whom it was sold. Some People affirm'd that it was printed by Permission, but 'tis a great Mistake.

N. B. The Author of this Piece is said to be Father Bougeaur, a Jesuit, and one of the Writers of the *Journal de Trevoux*; but his Society have thought fit to expel him.

Madrid, March 2. N. S. Don Joseph de la Quintana, of the supreme Council of the Indies, and Don Stephen de Maria, superintendant of the Accounts of the said Council, have received their Instructions in Quality of Ministers Plenipotentiary of his Catholic Majesty, to enter into a Conference with Mr. Keene the British Minister, and Mr. Castres, Consul of the said Nation, in order to conclude a solemn Treaty of Navigation and Commerce between the two Courts.

Brussels, March 8. O. S. The States of Brabant, in order to facilitate the Levy of the three Millions of Florins which are negotiating in this Country for the Emperor's Service, have resolv'd to grant four per Cent. Interest for that Sum, instead of three per Cent. which they gave heretofore.

Two Days ago the Council of War pass'd and executed Sentence upon thirteen Officers and Soldiers of the Regiment of Las Rios, for the Torture they inflicted upon some little Boys suspected to have pick'd the Captain's Pocket of his Watch, by confining them to the Guard-House, and putting lighted Matches between their Fingers. The Captain's condemned to pay a Fine of 88 Crowns. Three of the Soldiers who had the greatest Hand in the inhuman Treatment, were whipp'd and branded; two to have burning Straw drawn thro' their Fingers; two Corporals were sentenced to Prison for a Month; a subaltern Officer to have his Sword broke; the others were punished in proportion to their Guilt; and all that attended on the Scaffold upon this Occasion, are banish'd the Emperor's Dominions.

Petersburg, Feb. 17. The Court has given Orders for dividing the young Tartars taken Prisoners by General Laszy last Campaign, to the Number of 3000, into several Bodies, and sending them to Grandstadt, Revel, Nerva, and other Places, to work on the Fortifications, but the Intendants have Orders to treat them with all the Civility possible.

Vienna, March 11. N. S. Our last Advices from Constantinople say, that as great Preparations for War are making there, as in the Reign of Mahomet II. That the Levies of Men go on briskly; and that the young Fellows come in of their own Accord to lift in the Grand Signor's Troops. That the Taxes on the People are heavy, yet they pay them cheerfully, in Hopes that their Great Prophet will not forsake them: And that the Porte, encouraged by this Spirit in the People, threaten to act with four Bodies this Year, and to lay siege both to Belgrade and Temiswacr; but 'tis easy to foresee that their Courage will soon be cool'd, since Kouli Kan, the Sophi of Persia, still persists in his Design to re-establish Things on the Footing they were in the Reign of Sha Abbas: Besides, the Progress which the Rebel Sary Beg Oglow continues to make in Natolia. So that the Porte will no doubt, be oblig'd to divide their Forces, in order to defend themselves against all their Enemies.

Whitehall, March 17. His Majesty has been pleas'd to give Orders, that the Rev. Dr. Thistlewaite be removed from being one of his Chaplains in Ordinary.

They write from Lisbon the 10th Inst. N. S. That a Ship was arriv'd there, which on the 3d spoke with two Spanish Men of War of 50 or 60 Guns each, and a Merchant Ship of 30 Guns, bound to Spain, who had then been 100 Days from Buenos Ayres.

He is suspected to be the Person that robbed one Skegg a Quaker, last Easter, at Broadwater near Stevedage, and afterwards being pursued re-delivered the Money to Skegg, a Servant of Mr. Monoux of Sandy being present.

The same Day a Commission of the Peace for the County of Anglesea pass'd the Great Seal.
